

ShotPut Pro™

Media Offloading Application

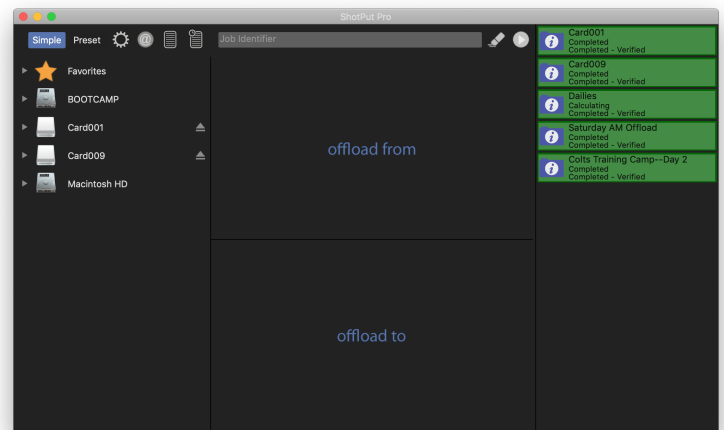

Workflow experts, from aquisition to archive - we've got your back(up!)

ShotPut Pro is a media offloading application for Mac and Windows users. Create secure copies of camera cards or volumes to one or multiple locations. Name and define new folders for each job or add files to existing folders.

- Offload digital media including;
ARRI, Blackmagic, Canon, Panasonic
RED and Sony. ShotPut Pro is file agnostic.
- Multiple checksum and file comparison options
- Pause and resume jobs
- At-a-Glance, color indicated, job status bar
- Simple and detailed naming options
- Text, email and desktop notifications
- PDF reports with thumbnails and metadata
- MHL, TXT and CSV reports
- Presets can be shared with other users
- Automate the workflow by pairing ShotPut Pro with PrimeTranscoder and ProVu
