

# PreRoll Post™

LTFS Archiving Application

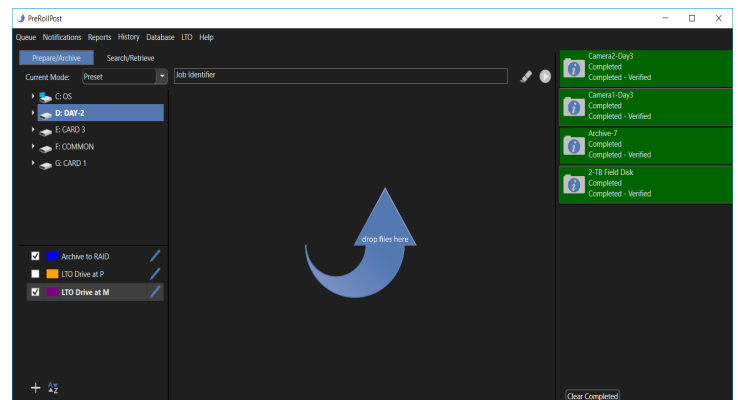

Workflow experts, from aquisition to archive - we've got your back(up!)

***PreRoll Post is an LTFS archiving application for Mac and Windows users. Create secure archives of media with a searchable database for future retrieval. Multiple verification options offer different security and speed preferences.***

- PreRoll Post is optimized for video files but can be used to archive any file type
- Create two LTO archives at the same time
- Drag and drop items into the queue
- Email and text notifications
- Multiple naming options for archives and tapes
- Archive entire projects at once, including FCPX projects with symbolic links
- Mount, format and unmount LTO tapes easily
- Control multiple LTO tape decks for simultaneous duplicate tapes
- Automatically format tapes for Discovery Channel deliverables
